Further, examination software generates the results. This has facilitated flexibility and rapidity of action in each sphere of activity in the examination branch. The whole examination cell is under CC TV surveillance. The final results of the students at various examinations are communicated to the stakeholders through the publication of the results on the college notice board and college website. There is a provision to download the results from the website directly. The issuance of provisional Degree/Diploma certificates is also computerized to ensure elegance and avoidance of delay.
