Preface

North Lakhimpur College is an undergraduate college with basic objectives to teach the students and to gear up them to serve the society in the right way. Guiding young minds is a priority at North Lakhimpur College. The college is marked for its potential strength in terms of number of students, academic achievements, research works, infrastructure and resources. The College is affiliated to Dibrugarh University for the award of degree and academic control purposes. Therefore, it does not have complete academic autonomy. The curriculum is decided by the university. However, the college aims at equipping the students with the diverse knowledge and exposure to meet the global challenges, so that they can develop confidence to face the real life. Our unique approach to student learning prepares the students for the challenges of life and work. The aim is to help the students to fulfill their intellectual and personal potential in a way that significantly contributes to each and every role they play in society. The college assists students in developing an awareness of cutting edge careers by organizing guest lectures, conferences, workshops and exhibition on academically relevant areas. Field trips and extension programmes are organized as a part of curriculum activities. The college has got Internal Quality Assurance Cell (IQAC) which has initiated the process of academic audit. Since the college is to abide by the syllabus prescribed by the Dibrugarh University, it does not have much academic freedom. However, it plays the major role in revising the course contents in indirect manner through its teachers, who are associated with revising the syllabus of the university. In general, the syllabus does not provide scope for interdisciplinary teaching. However, the college arranges various programmes to overcome deficiencies. Special modules introduced in different subjects contain interdisciplinary, multidisciplinary topics and has become a normal process for faculty members to keep in touch with other departments. In nutshell the college has been able to fulfill its mission and goals.

The college admits students on the basis of academic records. Distribution of contents to be taught by the teachers is done through a process of consultation by the Head of the Department. Teachers take the responsibility of completing the course by taking additional workload or by taking classes on holidays. Teachers take remedial courses along with the regular teaching. Remedial programmes are in built in the regular teaching. The college encourages the

meritorious students to participate in advanced learning. The college awards prizes to students showing outstanding progress. Regular teaching is supplemented by field studies, case studies, project works, seminars, popular lectures and group discussions. Some of the departments have got the audio-visual facilities, charts, models, maps etc for teaching purposes. It has total working days of 254 and total teaching days of 214 in a year.

A combination of teacher supervised and teacher independent learning activities at individual and group levels are integrated into the system learning such that students are optimally involved in assessment of their own progress through faculty and peer feedback. Academic development of the students are checked and monitored through terminal examinations. Apart from this, regular assessment is made by unit tests, seminars, tutorial assignments, oral tests, group discussions etc. Monitoring and mid-course corrections are designed to achieve the objective of the syllabi, which need to be completed as per the schedule of the examination as well as the academic calendar. At North Lakhimpur College, the tools employed in assessment procedures have been carefully designed to provide an important opportunity to both tutors and tutee to address the simultaneous development of the triumvirate of Learning-Knowledge, Application and Attitude.

PART- A

The plan of action chalked out by the IQAC in the beginning of the session towards quality enhancement and the outcome achieved by the end of the session.

Name of the Institution : North Lakhimpur College, Assam

Year of Report : 2007-08

PART A

The plan of action chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year:

The Internal Quality Assurance Cell set up in accordance with the guidelines of National Assessment and Accreditation Council (NAAC) aim at enhancing quality education for all and at the same time strives to give the students exposure and opportunities to have their skills such that the mission of qualitative education is achieved in its true spirit. The IQAC Executive Committee is relentlessly trying to add new dimensions to the glory of the institution by involving everybody including the student community, residents of the area, alumni and well wishers. In its quest for academic excellence, the IQAC has organized several workshops, seminars, popular talks, extra curricular activities etc. Further, meritorious and deserving students have always been helped and encouraged so that they could prove their worth. The plan of action chalked out by IQAC is as follows:

- The new body of IQAC of North Lakhimpur College was composed on July 13 under the chairmanship of the Principal with few senior administrative officers, eight teachers, two members from the Management, two nominees from local society and one senior teacher as the coordinator of the IQAC.
- The IQAC has been formed for the initiation of different measures of quality improvement and academic excellence in the college.
- The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the performance of institution.
- Initiation of measures for academic up gradation, innovation, of curricular design, suggestion for modification if any.
- To look after the financial liabilities, accounts etc. and maintenance of transparent records.
- Arrangement of seminar, workshop, popular talk etc in the college

- To encourage teachers to attend various workshops for academic improvement.
- To take measures for development of faculty and students and channel the efforts and measures of the institution towards academic excellence.
- To encourage activities of support services like NCC, NSS, Health Care, Guidance & Counseling units and Women Cell.
- Activities and development of games and sports
- To encourage the active participation of the Alumni Association for the betterment of the institution.
- To initiate measures for infrastructure development and technology up gradation.
- To take measures to develop internal resource.
- To initiate healthy practices in the institution.

The IQAC of North Lakhimpur College, established in 2004, has emerged as one of the major centers of excellence in the academic life of the North Lakhimpur College. The College has been conducting courses in Arts and Science and BCA course as well. These courses have not only helped bringing students from across the district to a stimulating academic platform but also helped shaping a healthy academic life, interaction amongst the teachers, students, alumni and well wishers. The meeting of North Lakhimpur College Teachers' Unit , held on 13th May 2008 proposed the Principal to compose IQAC for the academic session (2007-2008). Following this the IQAC was formed with the following sub committee with a view to adopt various steps and measures regarding its proper functioning.

Part B

Criterion wise inputs for the year 2007-2008
North Lakhimpur College, Assam

1. Activities reflecting the goals and objectives of the institution:

The North Lakhimpur College, the first institution of higher learning in the northeastern bank of the river Brahmaputra, was established in 1952 with the basic aim of providing higher education. Its objective is not only to impart quality education to the youth, which would enable them to step forward, compete and withstand the rigours of time but also to keep open all the windows for noble thoughts to enlighten the institute. It strives to ensure all round academic and intellectual development of the students by giving them the concept of purity of knowledge.

The north bank is a geographically isolated region, and is economically and educationally backward due to frequent flood and devastating earthquake of 1950. On the other hand, this region, inhabited by various ethnic groups, is full of natural resources with rich stock of biodiversity. For proper utilization of both natural and human resources the need of an institution of higher learning was thought of. The college is a fruit of the efforts and untiring zeal of a core group of far sighted persons in particular and the people of the vast region in general with the following goals and objectives in mind.

- To impart higher education to the students of this backward region, so that economic backwardness or lack of communication could not retard the academic development of the region.
- For socio cultural development of various ethnic groups of the region.
- To create scientific temperament.
- To provide employment avenue.
- To promote gender equality.

Academic upliftment and necessary competence to the growing generation enabling them to avail employment opportunity so that they can keep pace with the complex developments around them, extension of woman education etc are the major considerations addressed by the goals and objectives. The onus of the college is to throw light of modern education and to help developing human resources.

North Lakhimpur College is, therefore, built around the principle of benevolence providing the students and teachers as many ingredients of perfection as possible within its limitations. The college had a modest beginning but it has been attaining maturity through steady

progress in the last five decades by adding new elements and expanding itself in the possible spheres. However, the college is affiliated to Dibrugarh University and runs under the provincialisation system of the Govt. of Assam. Its activities are subject to and regulated by the norms and rules of the Dibrugarh University and the Govt. of Assam. The progress and programmes of the college, therefore, depend more or less on them leaving a very limited scope for the college to act within its parameter. In spite of such constraints the college stands out with its own characteristic features. North Lakhimpur College stresses on the need to accommodate itself with the basic facilities and proper infrastructure to create a congenial academic atmosphere. It is situated in a spacious and pollution free campus having various teaching departments, administrative building, hostels, well equipped and furnished laboratories, canteen, auditorium, playground etc. within it. The facilities of library and book bank, scholarship, pure drinking water, career guidance cell, health care and other support services are also offered to the students.

The college offers major courses almost in all customary subjects in the Arts and Science streams and all together it has nineteen departments. The College also offers BCA course under Dibrugarh University. It is served by a bunch of selfless, dedicated and meritorious teaching staff, which includes as many as 18 Ph.D. and 7 M.Phil holders. The fruit of the quality teaching is often manifested by brilliant result of the students in various university examinations. Presently the college accommodates nearly one thousand students in the under graduate courses and it receives inter state students also.

The contribution of the college is not merely confined to academics. Its presence is marked in the fields of art, literature, music, drama, games and sports etc. A number of its present and former teachers and students have earned fame for their notable achievements in their fields. In order to ensure facilitation of extra and co-curricular activities departmental forums and organizations like the students' union, N.C.C., N.S.S. etc. are formed for the students.

Activities of NSS wing, NLC, during 2007-2008:

The N.S.S .wing of the college consist of 150 volunteers. Under programme officer Dr. Suresh Dutta the following activities were carried out during 20087-2008.(i) On 22nd and 23rd July,2007,a'Cleanliness programme was executed within and outside the College campus. The

college authority provided the necessary financial assistance for the execution of the programme. A total of 100 volunteers participated in the said programme (ii) Dr.S.Dutta, NSS Programme Officer, participated in the “Zonal Preparatory Workshop for NSS Adolescent Quiz-2007” at NIPCCD, Guwahati on 25th Augst,2007,as anodal officer Lakhimpur district. (iii)As per the instruction of NSS Regional Centre, Guwahati, the survey work Annual Status of Education Report(ASER-07)was carried out covering 30 villages of Lakhimpur district during the month of November,2007.Atraining programme for NSS volunteers engaged in ASER-07 survey was also organized on 8th &9th November,2007 in our college.(iv)On 1st December 2007,’World Aids Day’ was observed in our college. Health Department of Lakhimpur district organized a day long programme to observe the day in association with NSS Unit of North Lakhimpur College.150 NSS volunteers participated actively in the said programme. On 24th December 2007,a day long social service programme was executed in the college campus in association with Social Service Section of North Lakhimpur College Students Union.

Activities of NCC wing

The N.C.C. wing of North Lakhimpur College consist of 75 cadets and under Prof-in-charge, Capt Dr. Jiten Dutta attended two annual training camps,1st one from 16th to26th Augst2007 at Phulbari, Tezpur and the 2nd one from 8th to 20th Jan.2008 at Bandardewa, Arunachal Pradesh. The college NCC team won 1st prize in March Past competition on 26th Jan.2008 organised by Lakhimpur district administration. Further two cadets attended in “Thal Sainic” camp held at Goa on August 2007. The college has developed the philosophy of its obligation towards the society and arouses the students to meet it through above activities and through value-based education. The basic characters of North Lakhimpur College include the fact that it always looks forward with a vision and elements of innovation. That is why the college played a pioneering role in introducing vocational and professional courses like Sericulture, Electronics, Computer Application and Computer Science apart from many career oriented courses. In fact, it was the first college in Assam to introduce the subject of Electronics in the undergraduate course.

The contribution of the college towards the development of human resources in the region is well appreciated by the society as well as by the U.G.C. and other organizations like N.E.C., ABITA etc.

The college authority, with the assistance of IQAC has taken up a few steps and programmes as part of post accreditation measure in the college.

The standard of teaching-learning process is improved by introducing technology-mediated measures such as introduction of audio visuals, microphones and uses of LCD in the classrooms.

The quality of teaching can easily be assessed from the brilliant results of the final examination conducted by Dibrugarh University and Assam Higher Secondary Education Council. As many as 10 students in the science stream secured 1st class in various major subjects and 10 students in the arts stream in the TDC Part III exam 2008. Moreover Miss .Kakoli Bhuyan of the Department of Mathematics bagged the award of best graduate in TDC final examination of Dibrugarh University 2008. In the last TDC Part III Examination of Dibrugarh University. Sri. Bhigu pd .Sharma, Sri. Anup Hazarika, Sri.Sanjay Kr. Hazarika, Miss.Mondira Bhagawati and Sri. Pranjal Konwar secured 1st class first position respectively in the subjects of Botany, Anthropology(sc), Geography(arts) and Assamese to add to the existing glory of the institution. The “Internal Quality Assurance Cell” (IQAC) set up in accordance with the guidelines of National Assessment and Accreditation Council (NAAC) aims at enhancing quality education for all and at the same time strives to give the students exposure and opportunities to have their skills such that the mission of qualitative education is achieved in its true spirit. The IQAC Executive Committee under Dr. Nobiul Islam as Co-ordinator is relentlessly trying to add new dimensions to the glory of the institution by involving everybody including the student community, residents of the area, alumni and well wishers. In its quest for academic excellence, the IQAC has organized several workshops, seminars, popular talks, extra curricular activities etc. Further, meritorious and deserving students have always been helped and encouraged so that they could prove their worth.

The games and sports scenario of the college has been quite encouraging during the past one year. Our College Cricket team emerged as the runner up in the Inter College Cricket tournament for the Session 2007-08 held at Dibrugarh University. The football team has also performed commendably well becoming zonal champion of North Lakhimpur Zone in inter College football Tournament. In Inter College Weightlifting and Body-Building competition Sri.

Robindra Nath Pegu(2nd in best Physique),Sri.Tileswar Kaman(1st in Heavy Group Weight lifting)and Sri. Kripanjit Pegu(1st in Light Group Weight lifting)brought laurels to our college. Further, in the Youth Festival of Dibrugarh University 2008 held at D.R.College College our students showed brilliant results and brought following laurels for the institution . Best team in drama, Best actress(Ms.Bobita Sharma),1st position in Tabla (Sri. Pranjal Borah),1st position in Gazal(Ms.Charumoni Gogoi) and 1st position in Flutter (Sri.Parama Gogoi).

The college is proud of having as many as 19 teachers with Ph.D degree and 08 teachers with M-Phil Degree. At least 05 teachers are expected to be awarded Ph.D degree in this year. A number of teachers have attended seminars at inter national, national and state level so far at different venue of the country. 1 (one) teachers was awarded Ph.D degree and 3(three)were awarded M-Phil degree in 2008.

01. New academic programmes initiated:

North Lakhimpur College is affiliated to Dibrugarh University, Assam and is a provincialised institution under the Govt. of Assam. Its activities are subjected to be regulated by the norms and rules of the Dibrugarh University and the Govt. of Assam. The progress and programmes of the College, therefore, depend upon them. Two new Academic programmes have been initiated by the College Vocational Courses in Computer Science, of BCA besides Bachelors degree in Arts of Science. Distance learning courses conducted by IGNU and K.K.Handique Open Universityhave been introduced from the academic session2007-2008. 25. Computerization of administration and the process of admission and examination results:

Computerization of college administration is under process however a part of the accounts section of the administration has done successfully. As part of the process, the college has taken up measures to train up the office staff and the accounts dealing section of the administration.

The process of administration is transparent and computerized in the year 2006. The college maintains a clean and systematic approach for admission into various undergraduate courses offered in the college. Public notification is made through newspapers; inviting application for admission. Relevant information regarding admission is also notified in the college notice boards as well as on the website of the college. Admission forms along with college prospectus are supplied by the college office or can be down loaded from the website of the college. The prospectus supplied along with the application form, give detailed information of admission requirements to particular courses along with stipulated time and date schedule. Admission is strictly on merit basis and as per Govt. rules of reservation. The degree examinations are held in the college as per routine prepared by the university. However the college holds regular terminal examination to keep up the academic spirit of the students. The evaluated scripts are returned to the students within 10 days. The degree examination results are declared at the college campus after declaration of results by the university authority.

Method of Examination followed by North Lakhimpur College.

North Lakhimpur College follows a conventional method as far as the conducting of the final examination of the Three Years Degree Courses is concerned. As a matter of fact the college is found to follow by Dibrugarh University from time to time as an affiliated college to the latter and consequently the college is left with little scope for exercising autonomy in such exams. However, the college is free to experiment with and implement its own ideas and innovative measures in the internal exams.

Academic caliber and admission ability of the students are tested at the beginning of the academic session by most of the departments through a written test before admitting them to respective major courses. They also hold unit test in the class regularly for periodical assessment of the students of the major courses and core subjects in addition to the two terminal exams held by the college in general. Such exams were long in practice reflecting the measures of internal exams of the college even before they came to be used as a part of the internal assessment of the students which is now in conformity to the examination rules of the University. The departments and the college bear the responsibility of conducting these exams. Performance of the students is reviewed individually and teachers point out their drawbacks and advise corrective measures after discussing the questions of such examination in the classes after the exam. The teachers of the college are encouraged and deputed to participate in the exam. Oriented seminars, workshops and discussions organized by the University and other academic bodies and suitable recommendations are implemented accordingly. The college tries to make the entire process of teaching and learning more effective by assessing the students through seminars, group discussing etc. also and they are made to consider them as a sort of preparation for there final exams. Computer is used extensively where it is applicable. Infact, North Lakhimpur College has adopted a formula to assess the students independently within the widest possible sphere under the guidelines of the University.

26. Increase in the infrastructural facilities:

To keep pace with the increasing number of students and to furnish them with the minimum norms and facilities as well as to accommodate them, the college is trying to develop and increase its infrastructural facility, with its limited resource.

- Foundation was laid for the construction of a new drinking water plant with the financial assistance of Rs. 80,000/- (Eighty thousand) donated by Mrs. Kalpana Borgohain in the memory of her late son.
- New Arts' building is completed. Department of Assamese, Economics, English & DOEACC are shifted to that building.
- Girls' common room is expanded and it is fully accommodated with chairs, tables and sports items etc.

30. Activities and support from the Alumni Association:

The Alumni Association of North Lakhimpur College was formed on July 07, 2002. It has significant contribution in the creation and maintenance of a healthy academic atmosphere in the institution. The Association takes up different positive and quality oriented measure from time to time and renders active cooperation to the college management towards implementing various programmes. A large number of members of the Association generously provide financial aid to the authority as and when situation demands, which are utilized in the development of various infrastructure and other facilities. The main objectives of the Association is to keep in close touch with the college and to organize seminars, talks, symposia, conferences, cultural and other programme in the college, from time to time, in order to inspire and educate the current batches of students and exchange views and ideas.

31. Activities and Supports from the parents- teachers association:

The parents/ guardians have a major role in enhancing the academic environment of the college. The association has been very active in dealing with matters related to the academic well being of the college family. At present the association has about 500 members with Mr. Sarat Ch.Challeng as President and Mr Golap Hazarika as Secretary.

32. Health Services:

The health services in North Lakhimpur Colleges take utmost care towards the maintenance of health and hygiene of the college. The health care center of the college is run by few faculty members and students. The unit arranges “Aqua Guard drinking water” facility for the students and staff. Various programmes and activities like yoga, physiotherapy are arranged of them with active cooperation of the doctors.

33. Performance in Sports activities:

Games and sports are integral part of education and it influences the physical and mental development of the students. The college has provided a massive playground within the campus to facilitate students for outdoor games and athletics. Minor games facilities like table tennis, badminton, carom, and chess are also available for the students. The college has a well equipped gymnasium club.

34. Incentives to out standing sports persons:

The college has awarded Rs.1000 to each player of the victorious cricket team for their performance in the Inter College Cricket Tournament. Further, the local MLA has presented a track suit to each player.

35. Students achievement and awards:

North Lakhimpur College has been able to prove its quality level of academic potentiality by the brilliant results of the students in various levels of examinations.

Miss Kakoli Bhuyan, having major (honors) in Mathematics was adjudged the Best Graduate of Dibrugarh University in the year 2008. A cash amount of Rs.5000/- was also presented to her by our honorable MLA

36. Activities of the Guidance & Counseling Unit:

North Lakhimpur College has set up a career Guidance & Counseling Unit run by few teachers which effectively arrange various programmes related to career oriented and academic

issues as well as personal counseling of the students. All departments of this college arrange seminars, popular talk and tutorial classes where students can exchange their views with teachers. Counseling unit as well as Women's Cell of North Lakhimpur College arrange invited talks of reputed persons, Doctors of various disciplines for the benefit of the students and faculty members. The CGC provides recent information to students regarding placement services, higher education options, competitive examinations and other career related options from time to time and arrange for communication to the areas as and when required by the students.

37. Placement services provided to students:

The college does not have any employment cell and thus cannot provide placement service to students. However, college offers job oriented courses, to help the students become self reliant like –

- i) One-year certificate course in general Sericulture, seed technology, marketing etc.
- ii) Two-year diploma course in general Sericulture, silk technology, silk report and weaving.
- iii) Three- year Advanced diploma course in Entrepreneurship development, Textile & Fabric, Post cocoon Technology and marketing. Fibre yielding Plants like Mulberry, Sum Plants are planted in the college campus Eri, Muga worms are rearing in these plants and 8000 (Approx) cocoons are collected every year.

Career oriented course (COC) like Repairing and Maintenance of consumer electronics are also offer by NLC. The Department of Electronics offers

1. Certificate courses in one year
2. Diploma courses in 2 years
3. Advanced Diploma courses in 3 years.

Students' enrollment: 15

38. Development programmes for non- teaching staff:

The college provides computer-training facility to the non-teaching staff through the computer-training scheme introduced at the college.

The college has provided financial assistance to non- teaching staff to learn Tally.

39. Healthy Practices:

The College has adopted its own mechanism to check the performance of its constituents. Academic development of the students are checked and monitored through class test, seminars, group discussions etc. The activities and performance of the teaching and non-teaching staffs and the function of the college management are thoroughly discussed in the meetings of the respective units. They undergo the process of self-assessment and the students' feedback is also taken for overall quality development. The sub committees formed to deal with various matters also give necessary recommendations where the necessity is felt.

Strategic Planning of any future programme is being made by the governing body on the basis of suggestions and recommendations of different sub-committees, teachers unit and students unit. Sometimes expert service from external agencies is also requisitioned in deciding future course of action.

The College always encourages teamwork in implementing every project. Successful celebration of the golden jubilee youth festival, college week etc reflects the power of teamwork prevailing in our college.

The college maintains transparency in taking decision in all affairs. Views and recommendations of the individuals, groups, teaching and non-teaching units and those of the sub-committees are given due consideration on various issues and the college authority takes the final decision which appears to be the best to the interest of the college.

The college is in the process of computerization. The college is also planning to add computers to every department and thereby interconnect them to the existing central computer center of the college.

The college establishes linkages with Academic Staff College in different University for training of the teachers in the form of orientation programme and refresher course.

The college has linkages with U.G.C. for sending teachers for research under teachers' fellowship scheme.

As a part of faculty development programme the teachers of various departments have international linkage with reputed institutions through their research activities.

- Self-financing course - Computer Science in Degree course is self-financing.
- Non-formal mode - Training in Sericulture & mushroom cultivation.
- Distance education - Distance education centre under Gauhati University and Dibrugarh University in some subjects.

Dibrugarh University has approved to open Distance Education in North Lakhimpur College on the subjects – Assamese and Mathematics.

Cultural and moral standard of students are developed by different religious and other celebrations, such as Saraswati Puja, Srimanta Sankardev's Tithi, Fateha-E-Duaz-Daham, Teacher's Day and also by teaching ethics and religion in the department of Philosophy. Lectures on various value based academic topic are conducted for upliftment of moral value. As example the talk delivered by noted social worker *Hem Bhai* may be mentioned.

Students are taught about civic responsibilities through N.C.C. and N.S.S. camps. The students are also encouraged to take part in social activities like blood donation, flood relief, creation of environmental awareness etc. The philosophy of social obligation is oriented among the students through value-based education.

The College arranges popular talk on personality development and career guidance. It holds environmental awareness camp, social awareness camp, blood donation camp and also takes steps to help the victims of natural calamities. The college also arranges Yoga camp, other co-curricular activities, Departmental bulletins and wall magazines are published for uplifting the writing and editorial skill of students. The college encourages the participation of students' in different inter college and inter state cultural and sports programmes. A North East level inter college debating competition has also been organized by the college for the last twenty-five years

The college is well aware of its distinctive goals and objectives as well as the challenges posed by the complexity of modern education system. So it is trying to make it competent enough to withstand and overcome all hurdles by developing and aiding necessary infrastructure and by accommodating the best faculty members. It is also trying to generate a self-financing support system within its limitation. In view of the changed nature of education system and socio economic need some new subjects are also proposed to be introduced which require inter

disciplinary measures. The college is also emphasizing on all round development of the students and the faculty members so that it can comply with the assigned responsibilities.

Some of the important community orientation activities arranged in the college are N.S.S. programmes, public awareness programmes regarding environment, health and hygiene and workshop on AIDS & Drugs, Blood donation camp etc. Moreover, the college also arranges extension lectures in different schools of the district and Lecturers of the college occasionally conduct teacher's training programmes, cleanliness drive etc.

The sense of competition is imbibed and the students are made to realize the complexity of the path, through which they are marching ahead .Attempts are being made to induce such impressions through class room teaching.

Departmental seminars, educational excursions, group discussion, debating and speech competition, recitation etc. are some of the measures undertaken by the college to promote the communication skills of the students.

Students are assigned with numerical problems by most of the departments of the science stream and competitions like Mathematical Olympiad and Chemistry Olympiad are arranged to enhance knowledge and skill of the students.

The college imparts the spirit of individualism and collective work through NCC, NSS, Students union, cultural activities, mocks parliament, debating, extemporary quiz etc.

The college follows a sincere and systematic teaching procedure which in turn attracting meritorious students through the decades and the output contributes to its growth as a remarkable center of higher education.

The college is the first institution in the entire north eastern region to introduce Electronics as one of the core subjects which offers the students the prospects of self employment. Moreover, vocational subjects like Sericulture are also added to its existing faculty and in order to keep pace with the modern digital informative world our college gives a chance to the students of this backward area by introducing Computer Science.

40. Linkages development with National/ International, academic/ research bodies:

The college develops linkages with national as well as International Academic and Research Organizations by way of encouraging the faculty members to participate in various programmes like orientation, refresher course, research works, seminars etc.

- A number of teachers attended orientation programmes refreshers courses/ seminars at different Universities as part of their academic development programme.
- The following teachers are actively engaged in research work leading to Phd degree under various University and institution.
 - Sri Dudumoni Bhuyan
 - Sri Bani Kt. Konwar
 - Mrs. Swapnali Chetia
 - Ms. Munmi Gogoi
 - Sri Deba Kr. Boruah
 - Sri Diganta Kalita
 - Sri Diganta Hatiboruah.

Dr. Bhabajit Bhuyan, Dr. Amiya Rajbongshi, Dr. Raghav Parajuli & Dr. Arun Bordoloi successfully completed their research work.

- Publication of Research Papers in National/ International Journals during 2007-2008 are mentioned in Annexure –

41. Any other relevant information the institution wish to add:

- For academic development to make them well equipped to face competitive examinations.

Part C

Plans of the Institution for the next year

Part C

Plans of the Institution for the next year:

The future destination of North Lakhimpur College are to "disseminate and advance knowledge by providing instructional and research facilities in such branches of learning as it may deem fit and by examples of its corporate life to make provisions for integrated courses in natural, physical and social sciences in the educational programmes of the college; to take appropriate measure for promoting inter-disciplinary studies and research in the college; to educate and train manpower for development of the nation; and to pay special attention to the improvement of the social and economic conditions and welfare of the people of the country, their intellectual, academic and cultural development".

North Lakhimpur College with such plans looks forward for further development in the next year so that it can establish itself with near perfection as a base to provide meaningful and quality education. In order to attain such objectives it has adopted a strategic plan with the prospect of multiple effects. The college has prepared a master plan for the next year to add more to its existing infrastructure and to maintain them properly for their optimal use. With the shrinking of employment avenues, especially in public sector the interest of students towards conventional subjects is declining. As such introduction of vocational and other subjects capable of providing self-employment has become essential. More subjects are proposed to be introduced which would be inter-disciplinary, self-financing and job-oriented in nature like Industrial Chemistry, Food Technology, Nano Technology, Information Technology, Genetics etc. The College also plans to start a Distance Education Centre under IGNOU. The college will encourage and provide possible help to the faculty members and the employees to get involved in their development programmes through research works, training etc. The College proposes to develop a Soil and Water testing laboratory and a Green House with the financial assistance from the D.S.T, New Delhi for research and consultancy purposes. We are also planning to set up a Networking Centre and training cum certificate programme in Mushroom Cultivation for easy accessibility of information and self employment of students of North Lakhimpur College respectively. The College is trying to involve its alumnus and other agencies for the development of the college and this process is to be intensified. The College has also planned for some social

extension programmes in collaboration with various N.G.O's and G.O's. At the same time the college contemplates to use its internal resources to raise fund. Approach to the appropriate authority seeking financial assistance for introducing new subjects like Disaster Management, Bio-Technology, Seribiotechnology and Bio-Informatics in the college is another step in this direction. On the other hand, the college proposes for autonomy which would give greater efficiency in academic and financial matters and ensure accountability and quality in all spheres of the institution. The college has every possibility to be developed as deemed university for co-education in the region.

Thus, the basic characters of North Lakhimpur College include the fact that it always looks forward with a vision and element of innovation. The College is committed to raise standards of higher education in the area and for us, offering high quality teaching is more than just a priority- it is our *raison d'être*. To be *précise*, we hope to devise a new equation for education: theory plus practical knowledge plus capacity to think within the next five years.
